

NO on 2

BAD FOR OUR SCHOOLS

QUESTION 2 on the ballot this November would allow the state to approve 12 new Commonwealth charter schools every year forever, eventually draining billions of dollars from our schools and destabilizing our public education system. It would encourage charters to expand into areas where they don't exist now, taking critical resources away from successful public schools.

Boston Public Schools lost more than \$120 million to charters this past year.

LOST FUNDING

This year alone, charters will divert more than \$400 million from public schools. That's money districts desperately need so they can offer more science, technology, arts and music classes, as well as preschool services and smaller class sizes. The money should be kept in the public schools for the benefit of all students.

NO LOCAL ACCOUNTABILITY

Charter schools are not accountable to their local communities. The state often approves them over the united opposition of the communities where they will be located. That's wrong. Local communities should have the final say on what kinds of schools they want.

'SEPARATE AND UNEQUAL' EDUCATION

Charter schools are divisive, creating a two-track system described by the NAACP as "separate and unequal." They typically underserve English language learners and special needs students, leaving public schools with fewer resources to educate a higher-need population.

HOW YOU CAN HELP: Our opponents have millions of dollars from hedge funds and corporate backers. We rely on people power to stand up for children in our public schools. If some of our public schools are falling short, we should fix them — not keep taking money away and giving it to unaccountable charters.
